COMMUNITY DEVELOPMENT

Building Division

Before embarking on home improvement projects give us a call at 893-1024 to discuss your plans and see what permits and inspections may be necessary, and code requirements to help you through the process. Whether it's deferred maintenance or new improvements, many elect to do these projects themselves. Building Division staff tries to take extra time to work with homeowners embarking on these do-it-yourself (DIY) projects.

On anything other than small and simple DIY projects we recommend homeowners consider using a licensed contractor. Unless you are very handy and have the necessary skills to take on more complex construction projects, larger jobs can quickly overwhelm those less skilled in construction practices and management.

Don't take chances with unlicensed contractors

Pinellas County Construction Licensing Board helps guide homeowners in hiring a licensed contractor for home improvements

Hiring an unlicensed contractor can put residents' homes in jeopardy, produce safety hazards and cost extra money to homeowners when work is not done correctly.

The function of the Pinellas County Construction Licensing Board is to regulate construction and home improvement contractors practicing in all Pinellas jurisdictions.

The licensing board can tell you if a contractor has a license. They must be licensed by the board or the state of Florida Department of Business and Professional Regulation and be registered with the board. Licensed contractors have passed a competency exam and perform electrical, plumbing or structural work in compliance with the building codes.

The state requires licensed contractors to have workers' compensation and liability insurance and the board monitors their insurance coverage. Without these, if a worker gets injured on the job or damages property, the homeowner is liable. Many insurance policies will not pay claims if an unlicensed contractor was doing the work.

WHEN SELECTING A CONTRACTOR, REMEMBER:

- Talk to friends and neighbors for recommendations.
- Home improvement contractors of various skills must be licensed with the Pinellas County Construction Licensing Board. The license number must be displayed on advertising as well as on contracts. You can verify a contractor's license number and check any complaints by contacting the Pinellas County Construction Licensing Board at 582-3100.

- Check with the Department of Justice and Consumer Services at 464-6200 to determine the number of complaints against a business.
- Ask the contractor for references and follow through with verifying them.
- Ask the contractor for proof of insurance.
- Never deal with anyone who solicits or appears at your home unannounced.
- Obtain a minimum of two bids for the work to be done.

WHEN SIGNING A CONTRACT, MAKE SURE:

- All work should be specifically stated in the contract.
- An approximate starting and completion date should be included.
- All warranties including labor and materials should be addressed.
- A payment schedule should be contained in the contract.
- Do not give a large deposit before the beginning of work and do not pay the balance until completion.
- A three-day right to cancel rarely applies to home improvement contracts.
- Do not sign a blank contract or one containing blank spaces.
- Watch for non-refundable deposits and non-escrow accounts. In new home construction, part of the purchase price must be escrowed (this can be waived).

For more information call the board at 582-3100 or visit www.pcclb.com.

Code Enforcement activities continued this week in Section 2 of the City, also known as the Northeast area which generally extends north to 7th Avenue, south to Gulfport Boulevard, west to 58th Street and east to 49th Street.

Because the City has one inspector who focuses on one section at a time, we depend on residents to call in violations when they see them. We will inspect within one working day of a complaint to verify any violation. Please call 893-1061 if you see violations. If the inspector is unavailable, leave as detailed a message as possible to help us find the violation. Complaints can be anonymous, but if you want a follow-up you will have to leave contact information which means the complaint is no longer anonymous. E-mail correspondence is considered a public record. If you wish to make a complaint using e-mail such communications are not anonymous.
